

# Justice For Barry Beach

We the undersigned, believe that the known facts clearly and convincingly demonstrate that Barry Beach is innocent of the murder of Kim Nees and we petition the Attorney General and Governor of the State of Montana to use the good offices of their positions to cause the following:

- 1) To seek a fair retrial of Barry Beach;
- 2) In lieu of a retrial, grant Barry Beach substantial post-conviction relief in consideration of the extremely doubtful validity of his conviction; and
- 3) To reopen the investigation of the murder of Kim Nees and to hold accountable the person or persons responsible for her death.
